#### HEADMASTER'S REMARKS TO THE CLASS OF 1967

Mrs. Wright and I would like to offer our warm congratulations to the class of 1967 for the successful completion of your work at Hoosac. We hope you will return to visit us occasionally and keep in touch by mail.

Our thanks go to you for helping to make the year a good one. The concern you showed for the well being of the school by adhering to Hoosac's best ideals is here gratefully acknowledged. For many of you, it was a year of great progress, personally and academically. We had our moments of trial in conquering our individual problems and also our rivals on the athletic fields. You did well. You often accomplished with spirit and zeal what cannot be accomplished by skill alone. You left the school a better place than you found it. God bless you and keep you safe, and remind you always of your highest standards. May you ever act with intelligent response to the needs of your neighbors.

Reid is a Boston product coming to the class of 1967 as a Junior. As a result of a public school background, he found boarding school life quite different than he had imagined. His first efforts academically proved successful. The new experience of boarding school was beneficial in that Reid feels he has learned more about himself. Being somewhat independent, Hoosac has widened his view of problems that are current in daily life, but in a micro-cosmic form.

Most of all Reid, is best known for being calm in dramatic situations. Reid often finds humor in a passage from Michael Chaplin's book *I Couldn't Smoke the Grass on my Mather's Lawn*. "A vegetable, a beet, and unthinking Reed."

Having gained confidence in himself, Reid leaves knowing success is being satisfied.

Robert (Booby), our French royalty, floated in on Hoosac in 1964. He started in by showing his natural abilities in charming and winning the hearts of the fair sex. He is one of the worshippers of the "Stone" technique. His hobbies are sports cars, good folk music, and well-worn jeans with boots. As an advocate of the good life, Bob shows disgustingly good taste.

Seriously, Bob is a conscientious student, with still untapped capabilities.

We at Hoosac wish the best of luck in the completion of his education.

University of Colorado . . . C. W. D. . . . Weekend at home!?! . . . Hey man, you gotta nickel? . . . Side burns . . . Hearts of Stones . . . Student rights . . .

In January '65 Ted rambled into the hallowed halls of Hoosac with cowboy boots, a tan suitcase, and a pile of Tom Rush records under his arm. The first words uttered from Ted's mouth were something to the effect of "Where's the gym?" The first weeks at Hoosac were spent in a daze wondering if he would make it. Much of his time was spent in extra-curricular activities, in and out of school.

Hoosac has done a great deal for "Pants" i.e., learning how to ski, acquire a dislike for breakfast, enjoy orange juice, tea in its place, and being more aware of the opposite sex (much education acquired through the "Heats of Stones" and Saint Agnes!) "H.F." is thankful to Hoosac for making him want to be on his own more and to realize the difference between not having it and being jive.

In the fall, if he has not renounced his American citizenship, Ted will enter the University of Colorado to participate in a diversified liberal arts program, ski, and receive an informal education. Realizing that "success is merely a satisfied mind."—his own phrase.

Fred came to us in September of 1965 and almost overnight became one of the most popular boys on campus, having made a substantial impression on both student body and faculty.

In sports, Fred has had a successful season in Soccer playing center forward. He ran the 100 and 220 yard dash in the Spring.

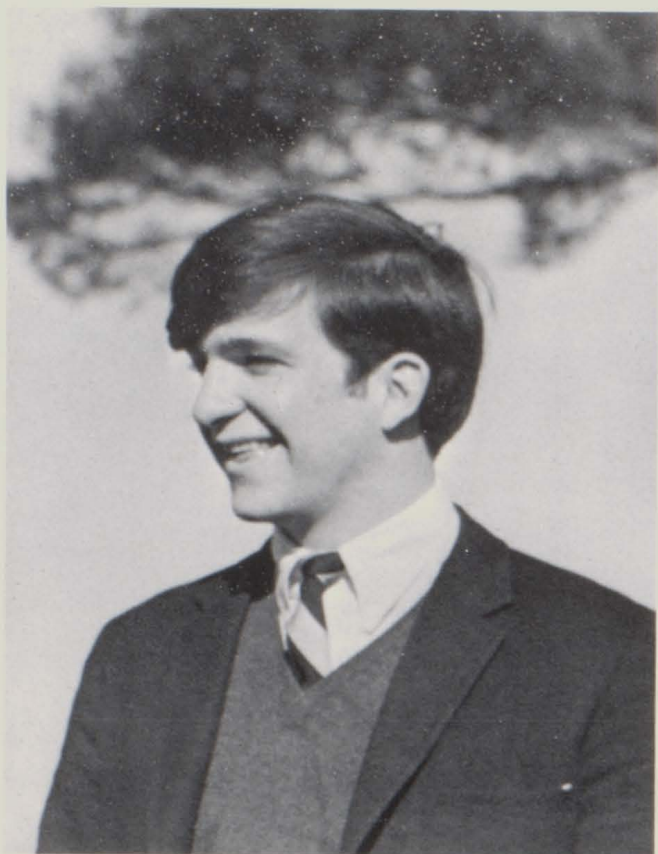

Next year Fred will be missed particularly by the smokers, who will look in vain for his curly head dancing out to the pit.

Fred has only two Pet-Peeves; Not having cigarette machines in every dorm and Hoosac not being coed.

Fred plans to enter the teaching profession. He has many of the best qualifications.

In Al's only year here, he has achieved many goals. He has maintained a fine scholastic average through the year as well as being normal to the all-star soccer team. (Al had never played soccer before he came here.)

Winter vacation came and went and Al came back with a broken leg. That finished Ice Hockey for him, which meant we lost one good defenseman. When Spring came along, Al turned out to be a track star too. But soccer still beckoned him, and he played every chance he got.

Next year Al is going to Kansas University 30 miles from his home in Shawnee Mission, Kansas. He will undoubtedly play fullback for K.U.'s soccer team. "Al has a good head."

Settling down to serious study has been difficult for Peter, but at Hoosac, thanks to Coach Dickie and other rooters on the faculty, he hit his stride. His deepest instincts are hidden beneath his ever-ready smile, which, it is said, persists even while he sleeps. His prizes during the athletic awards ceremony attest to his excellence in sports and hockey, baseball, but predominantly soccer. He will pursue the latter during a tour of Europe this summer, and undoubtedly at Tusculum as well.

Known by his close associates as "Congolese" or R.AH-R.AH. Often found sleeping through breakfast or saying "lights out," or "qui-i-iet guys!" "Jack, does Ding have an extra butt?" Would you please help me with my physics? . . . No matter what time of day it is, he'll walk up to someone and say, "Good Morning."

Rene is one of three students of the freshman class in 1963. School life was a great change, as he was the youngest boy in the school throughout his first year. Even as his class increased in size, Rene remained second youngest for two more years. But age was no handicap as he very deftly showed his fellow students. After three years, his class saw Rene as a dorm proctor in Wood Hall, and Coach Dickie's right arm on the soccer field.

Rene has often shown his ability to think for himself throughout his school career. Next year he is going to Ethiopia for some "Peace Corp" work, and plans to enter Adelphi University upon his return in 1968.

Jim is one of our three four year boys. Since his arrival, he has made a definite impression on all who have known him. He is smart, receiving good scores on his college boards; his quick wit has won him many friends; and he does well in sports. Jim was on the varsity soccer team as a half-back, and has become better than average in his four years of skiing. His vivid imagination has turned out many cartoons. He hopes to major in art in college. With his talent, he should be very successful. Jim is also an avid member of the "Pit."

Jim has long been an important part of the school community, and Hoosac will miss him next year.

Bill . . . B.J. . . . Boston U. . . . Red hat . . . Yesterday's Blues . . . Room 51, Townhouse . . . Pit crew . . . "stones."

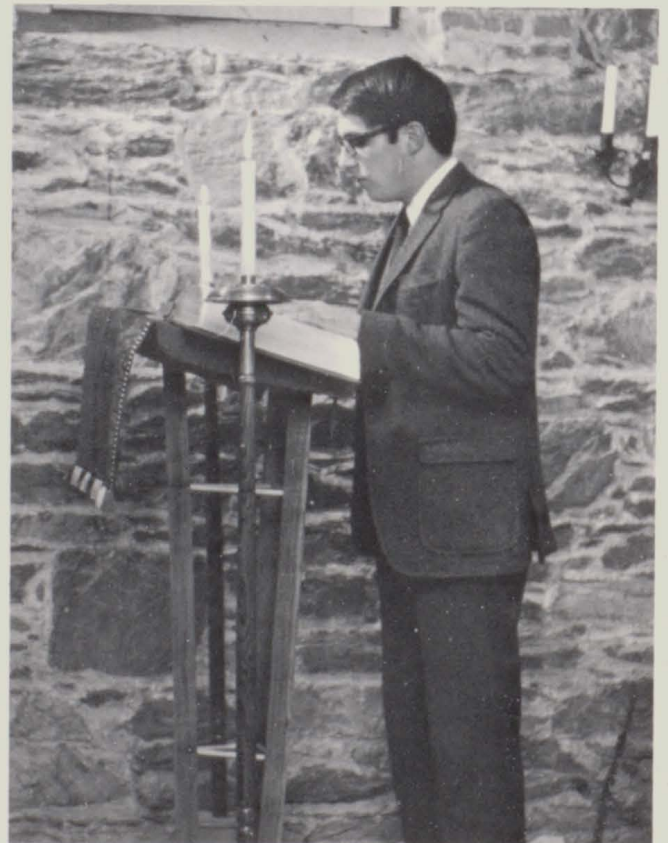

Bill (B.J.) bounced into Hoosac in the spring of '66 after a very diversified school career. He seemed really to blossom into a potential scholar. B.J.'s charms have brought him victory in many a battle with the opposite sex.

Disappointment was his when he found that Hoosac could not form a football or lacrosse team.

B.J.'s likes are "Browns," "the bear," Watkins Glen, "Yesterday's Blues" and *Hamlet*.

B.J.'s dislikes range from haircuts to Spanish. His attitude around campus is "ain't life a gas" especially when he enters chemistry class.

Bill will enter Boston University in the fall. His goals in life are to become rich without sweat and play the guitar like Tom Rush, or so he told us.

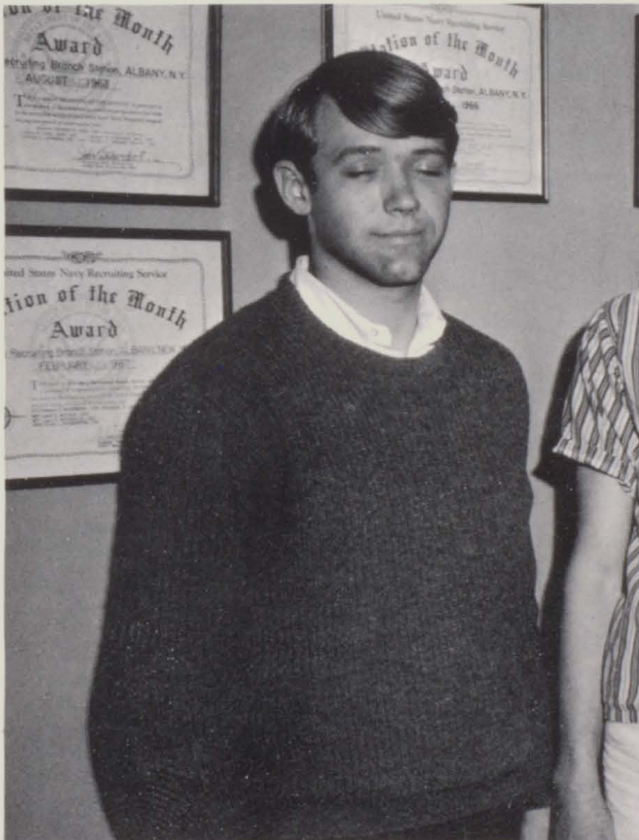

JOHN CHRISTOPHER METZGER

Chris came to Hoosac in 1963 and has successfully finished his fourth year, one of our four-year students! He will attend college either during or after his six year enlistment in the Navy.

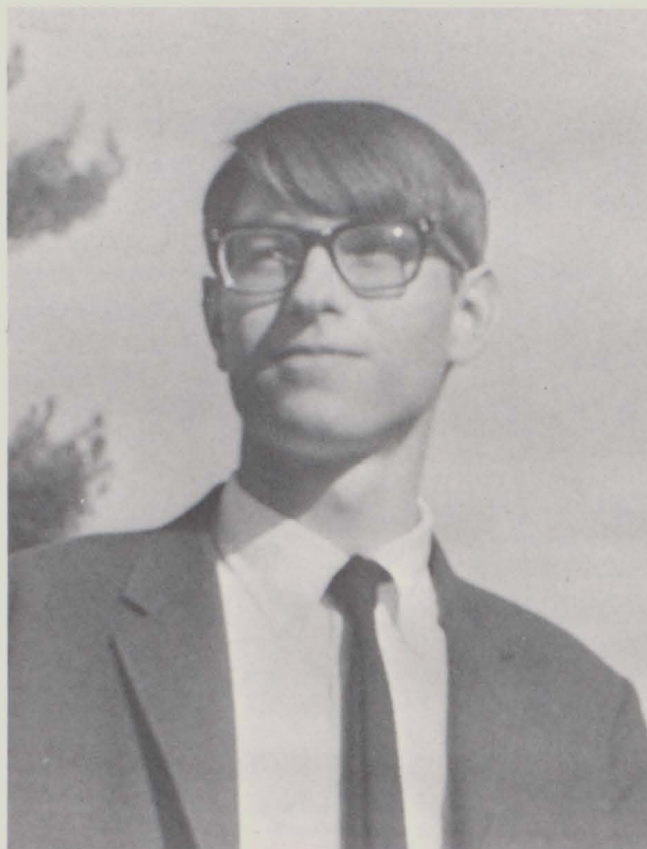

Chris has seen a lot of history flow under the bridge while at Hoosac, and he has been involved in it to the extent of meeting his own responsibilities.

The landscape will not be the same without his bow-legged stride, and his many friends will miss him.

Frank came to Hoosac in his junior year from his high school in Norwalk, Conn. In the fall he played on the first line of the J.V. Soccer team. When the cold winter winds came, Frank could be seen running the cross country course as a member of the Ski Team.

He enjoys skiing and had many enjoyable Sunday afternoons at Prospect Mountain in Vermont. The spring brings his favorite sport, tennis. He may be found on the tennis courts on any warm spring day.

Among the things he can take or leave are haircuts and the five-minute bell. He does like sports, scuba diving, boating and sports cars.

Next year Frank will be going to Franklin College in Indiana to study Liberal Arts. He hopes in the future to obtain a pilot's license and fly whenever possible. He wants to make his way into the business world, although he isn't yet sure in what field.

Howie came to Hoosac three years ago. Since that time he has become one of the few to keep a steady average over an entire school year. This takes a lot of effort which he seems to have in abundance.

In the realm of sports Howie puts in full time to soccer, hockey and baseball, all of which this year he played varsity. In soccer he plays the hardest position, goalie. On the hockey rink if Howie is not making an assist or a goal, he moves with the team to be in his place when needed. Baseball brings Howie into another light. In his two other sports he has an active part, but in baseball the outfield does not move or sway as the action in hockey or soccer. Just because the outfield does not seem to be as active as other sports, it still has to be played with spirit and attention. Howie, being a good ball handler and batter, helps the team immensely.

As far as the future, Howard plans to go to Muskingum Liberal Arts College. With all his qualifications, Howard should have no trouble in later years.

DOMINIC DAVID RICCI

Dom came to Hoosac in September of 1964. He has proven his well-rounded athletic ability by participating in every sport offered. An exceptionally good soccer goalie, someday he would like to play professionally.

This year Dominic was chosen Prefect, which he has handled well, gaining the respect of all.

Among Dom's pleasures are driving his "64 Wildcat," Italian Food, and girls, in addition to being friendly to us all. He dislikes getting up in the morning and studying too hard. Like the rest of us, Dom wishes Hoosac could be co-educational.

We all wish Dom much success in whatever he does in the years to come.

Harry Robinson came to Hoosac in "65" having graduated from P.S. du Pont H.S. Bus. curriculum. His object in attending Hoosac was to obtain the credits necessary to attend college to study "Depth Psychology," Philosophy, and Theology.

Harry studies psychology and theology on his own. His other interests are poetry and chess.

Harry's main objective is to contribute to mankind by being a seriously concerned individual, following his beliefs, and facing their consequences. He takes great interest in expressing his views and will put them to the test of debate at any opportunity.

Harry will give assistance whenever he can. He believes that whatever he may do, it will not limit his goal if he changes his directions suddenly. "My object is to understand my thinking with its perspectives, and to examine my spirit. This I can do wherever I go and in whatever I do."

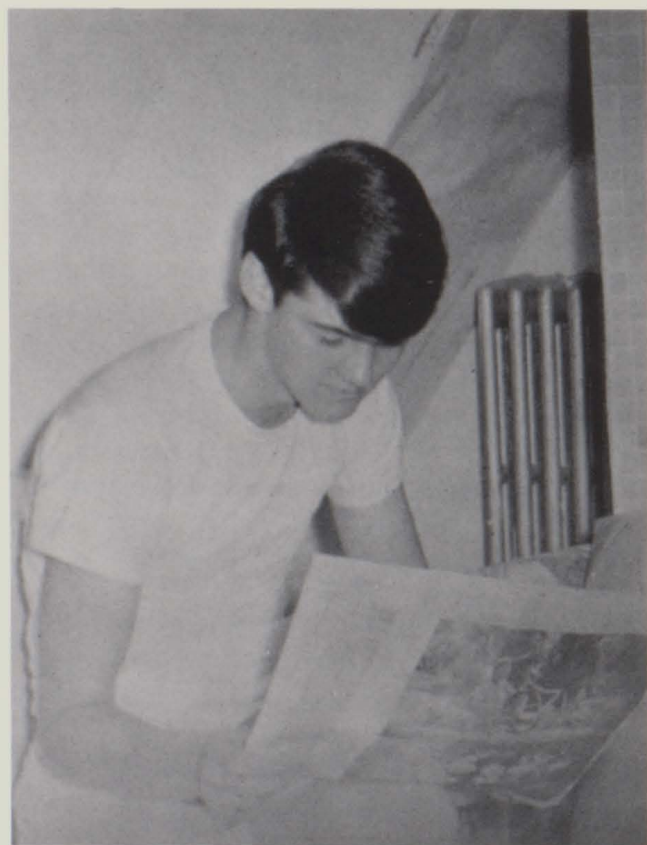

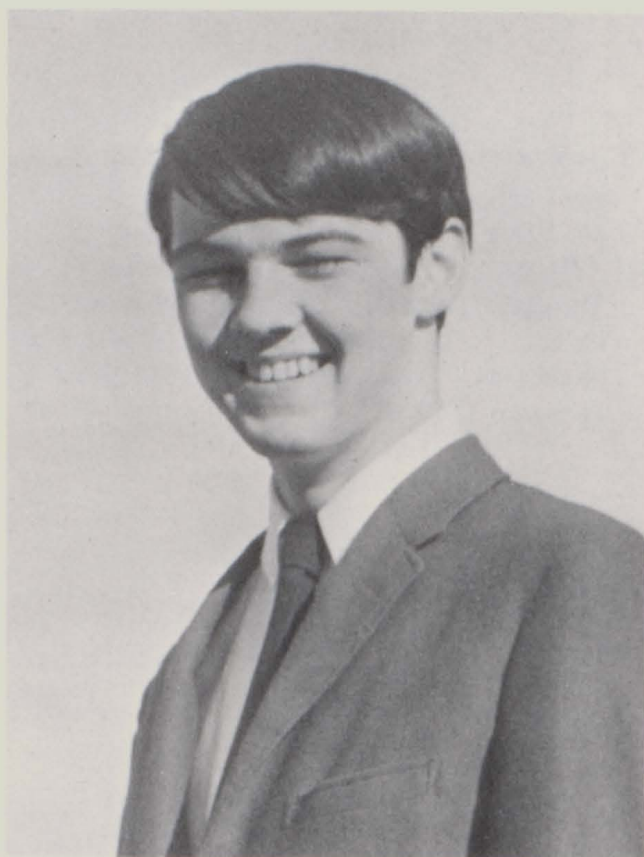

Harry believes that his two years at Hoosac have been most valuable. He says the greatest advantage of Hoosac is that it is small enough to develop a total personality, rather than just a machine to turn out diplomas.

PATRICK DUNN THEISEN

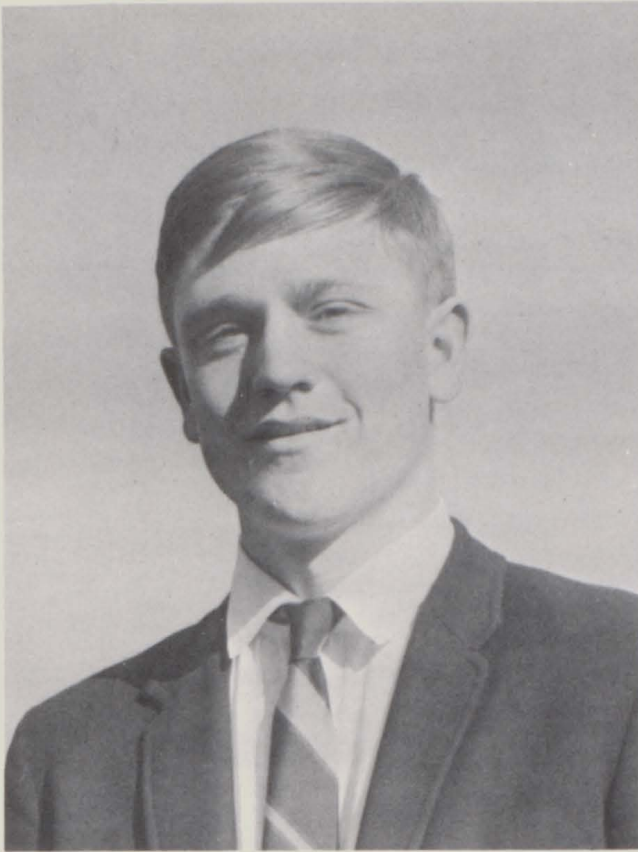

ACTIVITIES: Job Inspector VI; Prefect VI; Yule Log V, VI. ATHLETICS: J. V. Soccer V; Varsity Soccer VI.

Pat . . . Newton Prep . . . razor fights . . . returning "on time" after weekends . . . "Yea, Right" . . .

Pat came to Hoosac in September 1965 with some very dim views of private school which since then have changed greatly. In his junior year Pat learned to play soccer and wishes to continue after he leaves Hoosac. He also played hockey and was out for track. Pat likes soccer, motorcycles and arguing with the faculty. On the soccer field Pat works hard and with great spirit and has greatly improved since his first year.

In his senior year Pat was surprised to find he was to be installed as a Prefect and worked hard to uphold the rules of the school, though at times he found this difficult. Pat has no immediate plans for the future, but next year will attend Newman Prep in Boston, Mass.

John came to Hoosac three years ago from school in Vista, California. Rev. Dr. Edward Dudley Tibbits, founder of the school, was one of his distant relatives. Because of the totally different environment of Hoosac, it took a while for John to adjust, but he finally made it, and became an asset to the school.

John's name appeared on the honor roll several times throughout his 3 year stay, and he served as acolyte, store member, and newspaper reporter, and helped the social committee.

Baseball, John says is his favorite sport, but also participated in cross-country, wrestling, soccer, skiing, and tennis.

His favorite job is working as a life guard in the summer and he also loves to eat.

FRANCIS I. TOMLINS, JR.

97 Madison Place

Ridgewood, New Jersey

ACTIVITIES: Vice-President—Junior Class; Steward V; Tead-Steward VI; (Mustardbearer V; Sword Dance VI;) Co-Editor of Owllet V; Owl, Business Manager VI; Senior Prefect. ATHLETICS: J.V. Soccer V; Varsity Soccer VI; Track V, VI.

Frank joined Hoosac in September 1965 as a plain, ordinary junior. Since then he has become the most respected student on campus.

Appointed steward in early 1966, he proved most capable; as head-steward this year he has continued a very fine job keeping the Dining Hall smooth-running and orderly.

This year namer Senior Prefect, the highest student position, Frank has given his utmost effort to enforce the school standards.

Frank had a good first year in soccer and won a varsity letter. Unfortunately because of his bad knee, he was forced to retire in his prime.

Frank also participates in Varsity Track in which he high jumps and competes in the 100 yard dash.

In his quiet way, Frank gets along with everyone. He tries his hardest in everything he does and is very serious about his responsibilities.

Frank's outstanding record has won him admission to four colleges: Hartwick College and University of Colorado are his top choices. Set on Forestry wherever he goes, Frank will surely succeed in whatever he does.

Although Frank wonders if 6,000 dollars is worth it, he would like to purchase a Porsche 9-11 and try racing.

Frank has given his utmost to make Hoosac a better school and we all owe him much for his dedication. He will be missed in the coming years.

On Prize Day Frank received the St. James Award, one of the school's highest honors.

William "Zeke" Tucker comes to Hoosac from Somerset, Mass. as a post-graduate and a newcomer to private school life. Despite many obstacles, Zeke has done well this year, showing excellent musical ability by playing the drums in Hoosac's newest band, "Yesterday's Blues."

On the athletic field, Zeke played Junior Varsity soccer amazingly well and in wrestling earned a letter.

His subtle sense of humor and love for adventure throughout the year kept Zeke "where the action is."

Zeke's "likes" run from Jazz & Blues, to weekends in New York City. He dislikes bad drummers, getting up in the morning and cold floors. He plans to enter the Liberal Arts school at New England College in New Hampshire.
